## Easter: A Promise, Possibility for Renewal and Transformation

The resurrection of Jesus is at the heart of the Christian message. The darkness of human evil was confronted in the crucifixion of Jesus on Good Friday and conquered on Easter day. It stems from the tradition Jesus celebrated as he joined his disciples for the passover feast. It is the sacrifice and death necessary for new life!

This Easter greets us with the message of promise, possibility for renewal and powerful transformation amid profoundly unsettling pace of change in society, country and in the world. Easter really is the culmination and the fulfillment of God's promise. It gives us a promise that Jesus have overcome sin, darkness and conflict. God's promise emerges from the tomb faintly and quietly but realized in personal encounters with Jesus. Easter is not just an historical action but as the

promise of his presence with us today-even in the worst of circumstances.

At the heart of Easter message is the call to a new future, framed with hope and possibility in the midst of entrenched hopelessness. It is a vision of the future with God. When we feel despondent, broken, and defeated, God still breaks out with new life and possibility so that Jesus can break into where we are and how we are today. The awe and beauty of that moment of resurrection generates new possibilities, new delights, and new forms of life for people everywhere.

The resurrection of Jesus created a transformed community. It transformed the disciples into dynamic spokespersons who shared the gospel message to others that **BECAUSE HE LIVES WE SHALL LIVE FOREVER** also. Christ's transformation is our transformation. In this age of great challenge and even greater possibility, Easter's timeless message calls for personal and structural transformation.

Easter is not simply a remembrance of something that happened in the past. The Easter story resonates with life and

hope and how the promise of God is being realized. As we celebrate it, we remind ourselves that the resurrection is to be an everyday experience. May we be filled afresh with the treasures of God to serve the broken world. Let's be formed and transformed to be transformers and to live together as human community.

**Happy Easter**

## **Synod On Synodality**

Synod on Synodality -Communion, Participation and mission, is a very courageous initiative of Pope Francis. A few questions may arise in our mind as to why Holy Father announced this synod? what is his motivation? What is his inspiration? Answer to these questions sets the context of this synod.

Change is a continuous process. Change is inevitable and change is the only thing which is unchanged. If we do not participate in the change, we will be outdated. If we do not adapt ourselves to changes, we become irrelevant. The church also wants us to participate in the changing process, because church exist for the world, in the world. When the world is changing so fast the church also wants to be dynamic, youthful, active and relevant.

That is why Pope John the XXIII announced the historic Vatican II. Guided by the spirit, Holy Father opened the window of the church so that fresh air may enter in and let the filthy air leave the church; and thus make the church once again relevant. Radical changes were proposed and documents were created, but these documents have not yet become a reality today.

Pope Francis is a practical leader. He looks at the present situation of the world and the church. He is fully aware of what is happening in the church, the turmoil we experience in the church, all the abuses and scandals. Therefore, he invites the entire church to participate and contribute each one's share to make this synod a spiritual experience. To make each member of the church aware of his/her life as a participation in the mission of the church.

Pope Francis is looking into the proposals of Vatican II creatively, critically, dynamically and radically. He says, we (the Church) need to change the customs, habits and life style, even the language and the way it is functioning in the world today. He wants everything pastorally-mission oriented. Therefore, we need to have ongoing personal and structural process of conversion; a change of mentality, transformation of our perspectives, and our attitudes. Pope not only opening the window but opening the door to announce the need to revive the church.

The very word Synod consisting of Sun + odos means to walk with or to journey together. Pope Francis tells us by walking together, reflecting on our journey together, we learn from our experiences to live in communion, to have active participation and fulfill His mission. There is a paradigm shift, this synod is based on the common priesthood of all the people. Therefore, Pope invites every baptized person conscious of his/her vocation as Christians to live in communion with God by listening to the spirit; With God we need to listen to the cry of the people. So, listening to God, intimacy with God, communion with God leads us to be in communion with the people of God. So, it is an invitation to listen to God, the spirit especially to the cry of the poor and marginalized who are at the periphery. It is also a call for discernment, what the Spirit wants from us. Thus, the synod is inviting us to look at the entire people of God, as a participative church involved in the mission of the church, deeper communion with God and with one another. And therefore, he has convoked the Synod on Synodality 2023.

**I request all the communities as well as in the districts and units to discuss on the questions given below and submit a report to the Provincial's office by the end of June 21022.**

## One Month Trinitarian Spirituality Retreat Concludes in Khurda

The novices at Khurda had the privilege of having a 'One Month Arnold Janssen Trinitarian Spirituality Retreat.' They all had been waiting for this event because of its calming and transforming effects, and how it helps an individual to discern his calling for a religious life. In brief this particular retreat was an eye-opener for a few, transformation to some and a moment of discernment for others. The entire retreat was divided into four phases and each phase had different themes for personal growth. It all began by taking off our shoes before entering into the holy sanctuary of God. This was symbolically guided by Sr. Florintina SSpS based on the passage of the 'Burning Bush'. She requested the novices to dig into their life and to take off those sandals that disrupt their relationship with God. The first phase of our retreat was based on the 'Origin and Foundation of the Trinitarian Spirituality.' It has helped them to realize their deep rootedness in the Holy Triune God. Sr. Florintina beautifully journeyed with them by her symbolic way of prayer and reflections.

The Second phase was entirely based on 'Following Christ in his Public Ministry.' The retreat facilitator Fr. Godwin Viegas SVD prayerfully allowed the novices to delve deeper and deeper into the human person of Jesus, as to how he was prone to temptations and dangers just like any other human person yet did not succumb to them. He also guided them during the meditations and his spiritual animation was found to be helpful to many.

The third phase was based on 'Following the Lord on the Way of the Cross'. The retreat preacher Fr. Emmanuel Varghese SVD historically took the novices back to the time of Jesus. He helped them to understand the Cost of Following Christ. He took keen interest in their Spiritual growth; he met each one of them personally several times by helping them to clear the dark clouds that block their view. We commemorated the Lord's Last Supper in the form of 'Sedar Meal' which was appreciated by all the novices. We also reflected upon the Way of the Cross and the 'Death Meditation.'

The fourth week was centered on the theme 'Sent by the Risen Lord and Empowered by the Holy Spirit'. The preachers, Fr Gregory Arockiam SVD and Sr. Vimla Jacob SSPs helped the novices to understand our mission as being an 'Easter people.' They stressed on the Risen Lord, The Holy Spirit, Trinitarian Spirituality, Inter-Cultural Living etc. Both helped them in understanding our core identity as an SVD.

Throughout the retreat the novices picked up new forms of prayer such as the Biblio – Drama, Imaginative Contemplation, Nature Meditation, Pilgrim Dance, Dance of Blessing, Death Meditation etc. All 22 Novices experienced the guidance of the Holy Spirit and discerned their vocation! “All the retreat facilitators encouraged us in our journey of faith”!The Novices concluded the one-month Retreat in Catholic Ashram, Khurda on March 31, 2022.
